

Objective: Your task is to create a web form that will generate the certificate with the details (trainee ID, mentor name, from date, to date, submitted on) inputted by the intern. You should build this form using HTML and CSS. Follow the instructions and requirements below:

Instructions:

It should have:

Level 1 heading with the content "Certificate of Internship."

Level 5 heading with the content "Submitted on: placeholder"

Paragraph content should be as follows:

This certificate is awarded to placeholder.

He/She has completed the internship program for the role of placeholder under the guidance of placeholder from date placeholder to placeholder.

He/She is found to be hardworking and sincere. We wish him/her best of luck for the future.

Make sure that text is aligned to the center.

It should have the following signatory part:

For MINUNSHOW4ALL VENTURES PVT LTD,

Authorized Signatory,

Style the Form Elements:

Ensure that input fields and labels are styled according to the CSS.

Add the Generate "Certificate" Button:

Create a submit button within the form. The button should have the text "Generate Certificate."

Add more styling and layout enhancements to make the form visually attractive.

Experiment with additional CSS properties to customize the form further.
